

GROUND FLOOR

Registration
Cloakroom
Cafe

The Turing Hub

- E&S
- PitchFest
- Long Table
- Networking

- Lifts A & B
- Toilets

FIRST FLOOR — Demonstrations

- 01** Using AI to improve marine ecosystem health: The open-source toolkit
- 02** Intuitive data analysis: the Turing Interest Group in Visualisation
- 03** The Turing Way: Open source and community-led AI guidance
- 04** Skills at the Turing: Collaboration café and discovery portal
- 05** Data Safe Haven: Community-led trusted research environments
- 06** Counting cats: Natural language processing to count the uncountable
- 07** Real-time behavioural insights: Temporal graph analysis with LLMs
- 08** Accountability principles: A citizen-centric approach to AI
- 09** Digital Twinning NetworkPlus: Building an inclusive research community
- 10** Project Bluebird: AI and digital twins for air traffic control
- 11** Sub-threshold warfare: Countering false narratives with AI
- 12** Skyway: the world's longest drone flight corridor?
- 13** Whispers in the wind? Analysing tactical military radio traffic
- 14** Using AI to model event crowd dynamics for proactive safety management
- 15** Testing system security in safety-critical applications with adversary
- 16** Deepfakes: Vulnerability and risk in malicious use of advanced AI
- 17** Preventing the next pandemic with the World Health Organisation
- 18** Setting new standards for responsible AI in healthcare with LLMs
- 19** LLM language competency: Can you beat a chatbot at recognising idioms?
- 20** Interfaces for accessibility: Hands-free AI-powered eye gaze control
- 21** Health data and AI research collaboration café
- 22** The Turing-Roche partnership: Working towards personalised healthcare
- 23** Cardiac Digital Twins: Personalising medical care with AI

- Skills, Core capabilities & Knowledge Exchange
- Defence & Security
- Health

SECOND FLOOR — Workshops

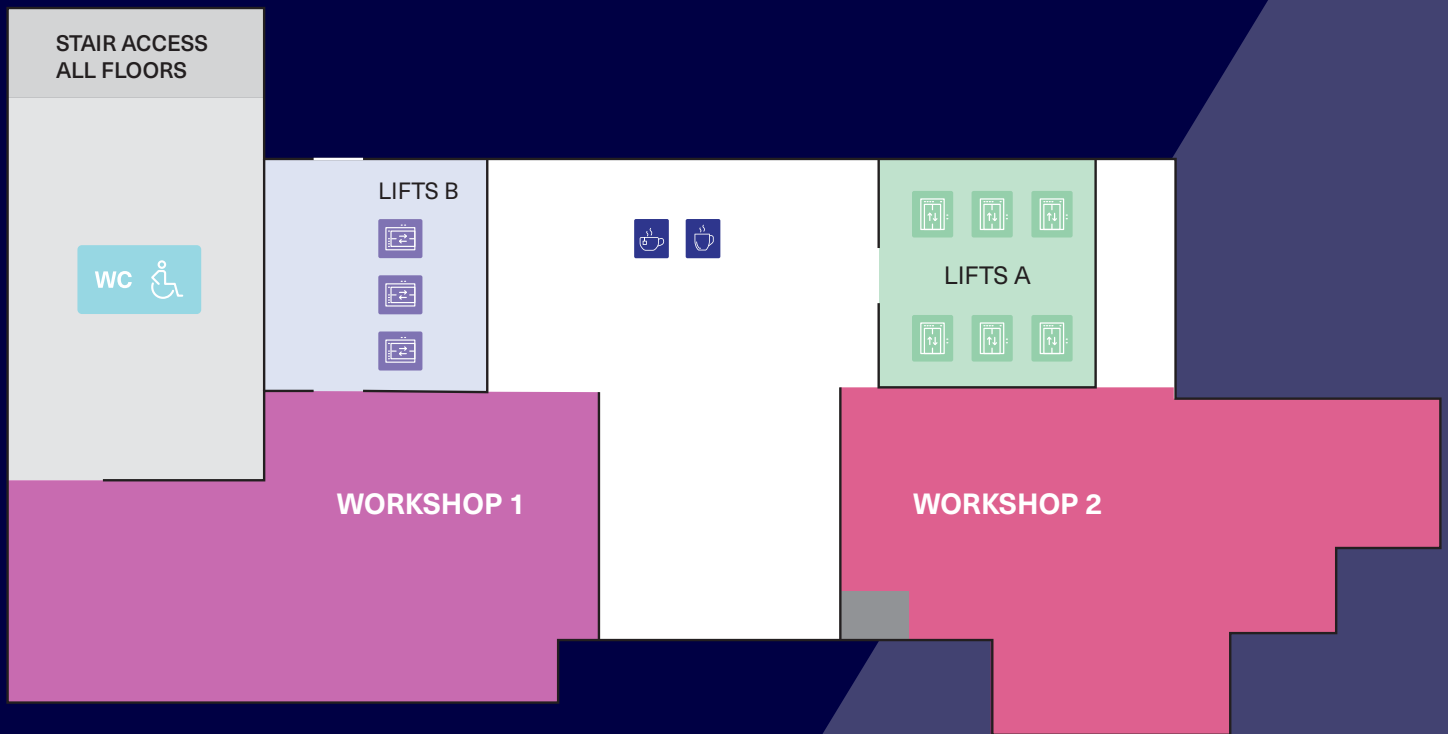

Workshop 1

Workshop 2

— Coffee station

— Lifts A & B

— Toilets

THIRD FLOOR

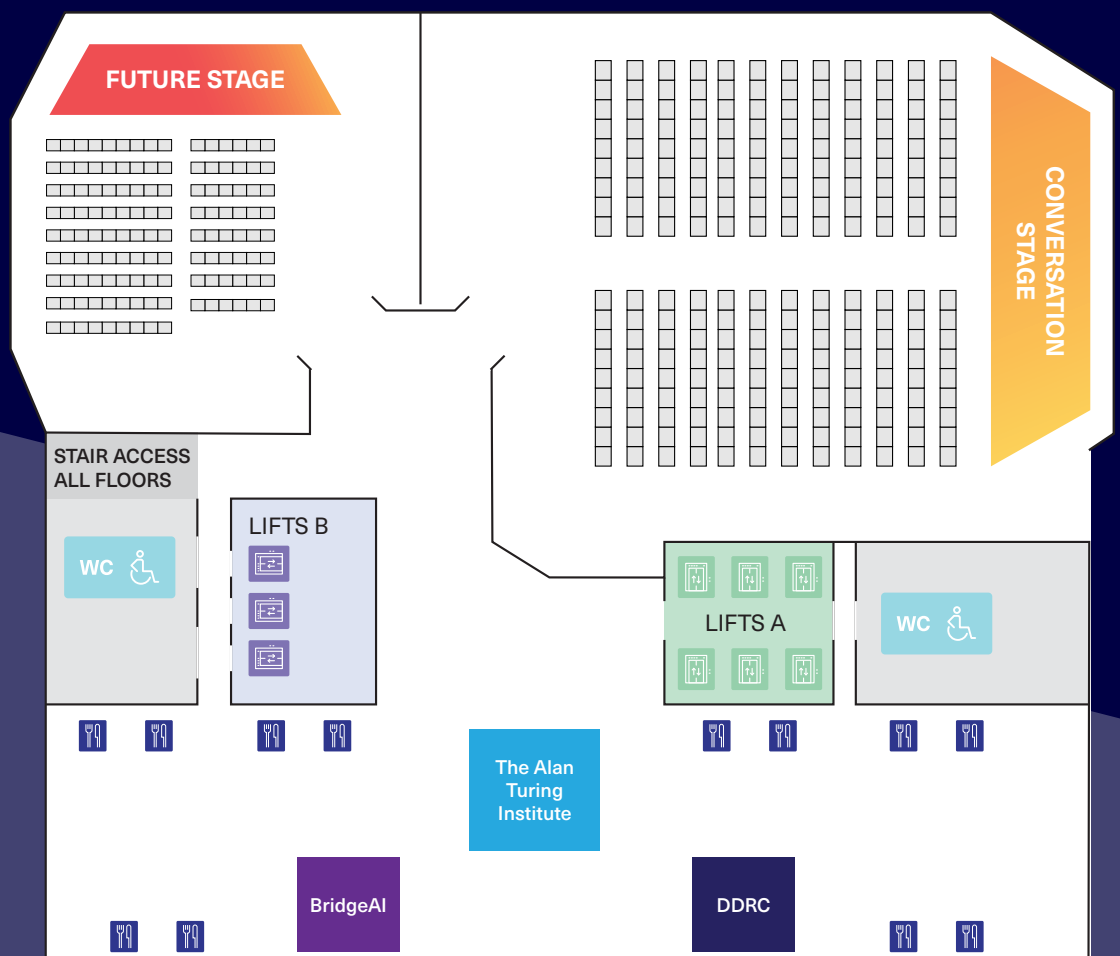

Partner Demonstrations

- The Alan Turing Institute
- BridgeAI
- The Defence Data Research Centre

Future Stage

Conversation Stage

- Catering
- Lifts A & B
- Toilets

FOURTH FLOOR

Wellbeing Space
Parent & Child Space

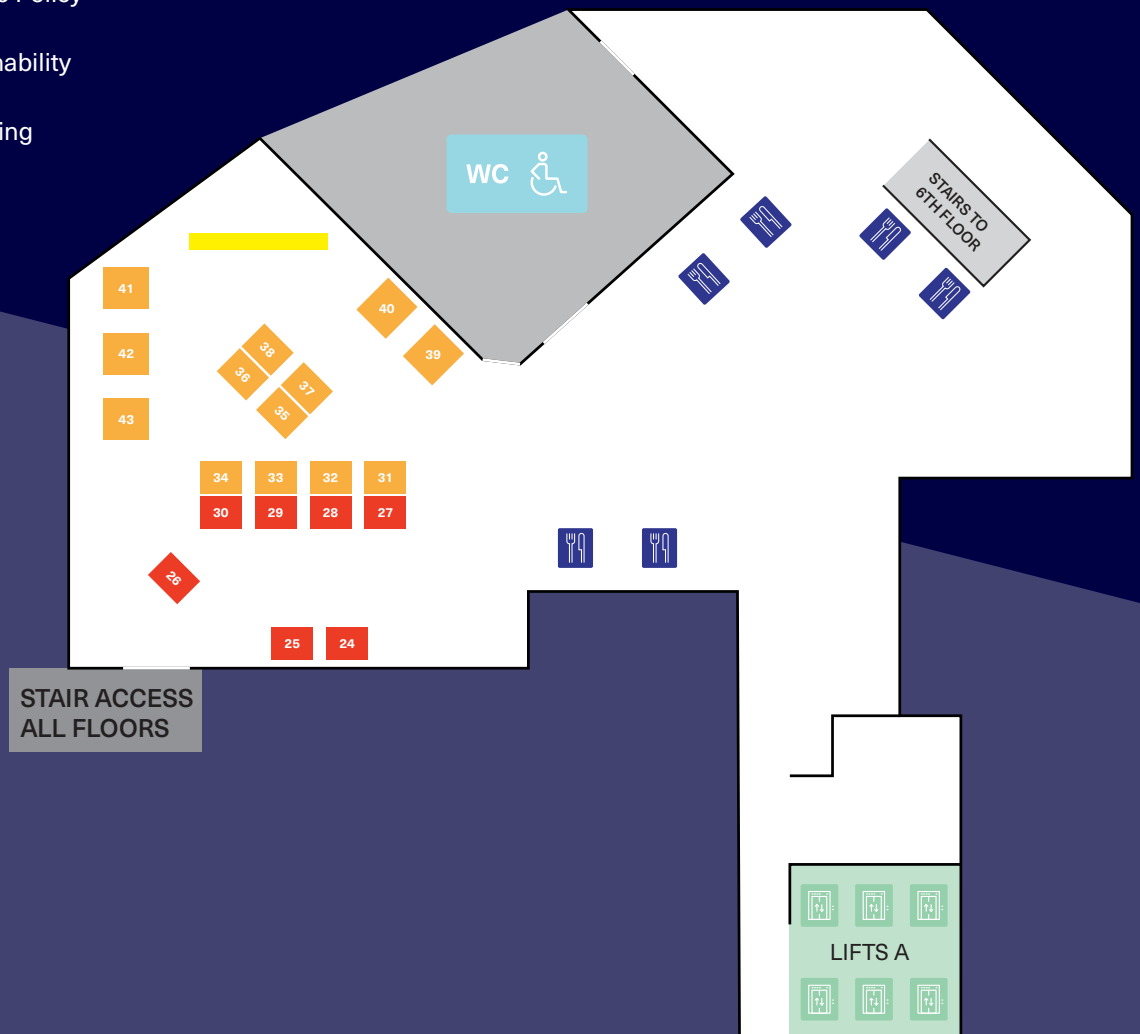

- Lifts A & B
- Toilets

FIFTH FLOOR — Demonstrations

- 24** Building the world's first industrial safety tech regulatory sandbox
- 25** Responsible generative AI for SMEs in Africa and the UK
- 26** AI's impact on future generations: What can children teach us?
- 27** Navigating international AI standardisation with the AI Standards Hub
- 28** Digital twins for building trust between societal institutions
- 29** Computational methods tackling major social policy challenges
- 30** Trustworthy and Ethical Assurance platform: Assuring model safety
- 31** Inequality in city life: From streets to stories
- 32** Addressing the UK's serious traffic congestion with Deep Learning
- 33** AI for health and sustainability: Modelling hyperlocal air pollution
- 34** Enhancing map quality and visuals with Bayesian deep learning
- 35** Cityledger: Blockchain for social innovations and sustainable cities
- 36** Critical minerals supply chain traceability solutions
- 37** Colouring Cities: Interactive mapping to improve cities
- 38** The Urban Analytics showcase: Improving cities with AI
- 39** Tree-planting for Net Zero: Bespoke digital twins
- 40** EcoTravel: The app using AI for sustainable commuting
- 41** Revolutionising weather forecasting with AI
- 42** Monitoring of biodiversity with AI
- 43** Harnessing the power of data science for a sustainable world
- Data-Centric Engineering interactive wall

- Digital Society & Public Policy
- Environment & Sustainability
- Data-Centric Engineering

SIXTH FLOOR

Research Stage

- Stairs to 5th floor
- Coffee station
- Toilets
